

Dr Robin

October 13, 1970

Dear Ernst,

Separately, I am sending you half my supply of hashish, and enclose two assays of the material. The assay by Coy Waller is probably correct; that of Miras probably underestimating the content.

As for citing the source of the material, you should do what you feel is best. The material was imported by me, under a federal permit, for research studies in man. It is derived from Athens, and is considered a grade "B" or "B+" hashish. If you wish to give credit, it is from the supply of the International Association for Psychiatric Research, imported in 1969.

Good luck in your studies.

Sincerely yours

Max Fink, M.D.
