

February 23, 1966

The Honorable Stuart Symington
United States Senate
Washington, D.C.

Dear Mr. Symington:

I would be grateful if your secretary could make available to my office a copy of Public Law-480 which we have been told describes the proper use of blocked funds in foreign countries for research and teaching purposes. This department has an interest in establishing a research program with the University of Istanbul and we would be grateful for any information regarding this law or the proper offices in the State Department which may be helpful to us.

Thank you for your referral.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
