

November 29, 1962

Mr. James W. Montgomery
Librarian, Hillside Hospital
P. O. Box 38
Glen Oaks, New York

Dear James:

Congratulations on your new appointment and I am delighted that you have the opportunity to develop the kind of library that you have wished for such a long time.

Mrs. Matheson has worked very hard in developing our library and we are now in the process of expanding our stack space to accommodate journals of many year's duration. In addition to the usual library functions, I have already begun a collaborative study with the scientists at Washington University in information retrieval. Next spring, when we have our Computer Center established, I trust that we will be able to undertake such studies and provide such information services as may be of interest to our scientists.

Like all new ventures, this one has had its difficulties and developing staff has been a slow and tedious job. However, some very fine scientists are coming to join us this winter, and I am delighted because I anticipate an exciting future.

Good luck on your new appointment. My best regards.

Sincerely yours,

MISSOURI INSTITUTE OF PSYCHIATRY

Max Fink, M. D.
Director
