

Fink

December 22, 1971

Mr. John E. Ingersoll
Director
United States Department of Justice
Bureau of Narcotics & Dangerous Drugs
Washington, D.C. 20537

Dear Mr. Ingersoll:

We have examined our summary records of methadone use, and find that our clinic has dispensed the following amounts:

(1971)	July	152.8	grams
	August	169.1	"
	September	155.8	"
	October	142.3	"

Attached is a tabulation of the number of applicants for treatment to our clinic during the same period.

I trust these data are helpful.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
