Brooklyn, New York 11217

Dear Sam,

Thank you, and Henry, for thinking of me for your volume on drug dependence, particularly for the electrophysiology. I am pleased to accept your invitation, with one *caveat* : the data will not be novel. Our data on heroin, methadone and the antagonists have been published; the cannabis is in press; and I know of no new material for barbiturates, cocaine, LSD, *etc.*

If you still wish it, a chapter on "*The Electrophysiology of Drugs of Dependence* " can be prepared, as an academic review with citations.

Good luck !

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
