Dear Hy:

Enclosed is a copy of the proposed protocol of our Collaborative Study. Please review this and provide any corrections that you may wish.

My staff suggests that an oscillator that would be helpful is the Hewlett-Packard 202C low frequency generator which costs about \$305.00. A reasonable oscilloscope is the Tektronix Type 310A 3" scope which costs about \$675.00.

I am planning to be in New York on June 9-10, and shall call you for an opportunity to visit your facility, probably on Wednesday, the afternoon of June 9.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
