Dr. Werner P. Koella  
Worcester Foundation for Experimental Biology  
222 Maple Avenue  
Shrewsbury, Massachusetts

Dear Werner,

Enclosed are two xerox copies of our report on cyclazocine as presented at the American College of Neuropsychopharmacology in San Juan in December. I have been dissatisfied with the figures. Since they do not add as much as I had originally thought, I should like to submit this for publication without figures.

Thank you for your patience.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
