Dr. F. Flügel
University of Erlangen-Nurnberg
Erlangen, Germany

Dear Professor Flügel:

Since I returned from Europe, Turan and I have been busy in developing the research programs both in the laboratories and on the wards. I was very pleased that at the last meeting of the Society of Biological Psychiatry we were able to present reports of some work that had been completed here, including studies on Ditrán and on the EEG changes associated with changes in psychopathology. Both of these papers were presented by Turan and were well received.

By now you will know that you have been elected to the Society and I wish to extend my congratulations.

Both Turan and I are looking forward to attending the International EEG Meetings, and I asked him about the dates for the meeting of the Deutsche Arbeitsgemeinschaft für Neuropsychopharmakologie. He has told me that the meetings are to be held September 15 to September 17, in Nurnberg. If it is at all possible, I would like to make arrangements to attend this meeting, since the previous meetings have been so outstanding. I do not know if the meeting is closed and so I am writing to inquire whether a formal invitation is necessary. If not, would your secretary be kind enough to arrange with the secretary of the Society to have a copy of the program sent to me?

My best regards to Mrs. Flügel and to Dieter.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
