Dr. Lewis Robbins
Hillside Hospital
P. O. Box 38
Glen Oaks, New York

Dear Lew:

One of my associates, Dr. Alexander Don, is a graduate psychiatrist from South Africa. He joined me a year ago and now he is anxious to visit a few of the clinical research centers in the East to broaden his experience. As I have occasionally referred to the population of Hillside as being different than those we now have, he has asked whether it would be possible for him to attend a clinical conference with you and your staff.

He will be in New York during the week of September 14. I would be grateful if I may ask him to write directly to you for an opportunity to have a member of the staff show him about and perhaps permit him to visit with some of the staff psychiatrists. I believe he would be pleased to meet Dave Graubert, Bill Benjamin, or George Yessin, in addition to Abe Lurie and Don Klein.

While I hesitate to make such a request ordinarily, I believe that Dr. Don is interested in returning to the United States and would probably look for an opportunity in a clinical center such as Hillside. If he were to do so, I would recommend him highly. May I have him write to you?

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
