Dr. Ted Lieberson
Hines,
Illinois

Dear Ted:

A very fine research assistant, Miss Pam Rosenfeld, is getting married this week and will accompany her husband to Chicago within the next few weeks. Both Turan Itil and I have found her work very helpful to us, and we are taking the opportunity of recommending that she call on you, in the hope that you may be able to assist her in obtaining a position in Chicago.

Miss Rosenfeld came to us about a year and one-half ago as a participant in our information retrieval program. She has assisted me immeasurably in providing descriptors for our reprints, in editing my "EEG and Human Psychopharmacology" bibliography, and in assisting us in bibliographic searches. She is now acquainted with the EEG literature and I believe would be a valuable library assistant, either in your program or in programs similar to ours.

Any help that you can give her will be appreciated.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
