Italy

Dear Walter,

I am 'on service' in September and 'off service' in October for the in-patient service. I have planned a number of trips in October: October 5-8, 14-20, and 27-Nov. 1. It would be best if you came at the end of September.

I have a research fellow, George Petrides for studies in ECT. He has been trained by Itil in the HZI system, and we received an updated version of that system last week. It should be operational in the next few weeks. I would be pleased to have you consult and supervise George in his EEG studies.

Any news from Albuquerque?

My daughter-in-law delivered a healthy girl two weeks ago. Martha and I are grandparents now. As I tell all, I don't feel different, but I suppose it has been a turning point in our lives.

My best to Titty.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
