

November 17, 1972

Dr. Elmer Gardner
Bureau of Drugs
Office of Scientific Evaluation
Food and Drug Administration
5600 Fishers Lane
Rockville, Maryland 20852

Dear Dr. Gardner:

Enclosed is an amendment to our IND 6590 for levomethadyl
and IND 6825 for methadone.

At the request of Dr. Reid of SAODAP, we are enclosing a
copy of the latest report of our studies of levomethadyl, which may
be useful as data of phase-I studies in man.

We are submitting the usual request forms (BNDD) for material
to NIMH, and will undertake the study about January 1, 1973.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
