

April 12, 1966

Mr. Warren A. Thompson
Assistant Chairman
Missouri Institute of Psychiatry
5400 Arsenal Street
St. Louis, Missouri 63139

Dear Warren,

Enclosed are the travel authorization requests as suggested in our memorable discussion of April 11.

It was my understanding of our conversation that you and the University would prefer that all of the work on MH-11380 be accomplished by June 30. This cannot be done. The work here will be terminated by June 30, and will, if it is to be completed, have to be done elsewhere.

For this purpose, I would suggest that you review the established procedures of the National Institutes of Health and provide for an orderly transition for the remainder of the grant, effective June 30.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
