Dear Jonathan:

Both Sam and I have read Dr. Gallant's paper on trifluoperidol. This may be a good subject for discussion. The only other compounds that seem to warrant consideration are the benzquinolizines and tetrabenazine.

I have recommended Turan Itil and Sam Gershon to the ACNP. Dr. Rothman has requested another sponsor and I would be grateful if you would consider sponsoring Sam and Turan as well. If you feel that you are less acquainted with Turan, let me know and I will ask Hy Denber. Their curriculum vitas are enclosed.

We are looking forward to seeing you in September.

Sincerely yours,

Max Fink, M. D.
