Dr. P. B. Bradley
Department of Experimental Neuropharmacology
The Medical School
Birmingham 15, England

Dear Phil:

Enclosed are two copies of Figure 1 for the paper "Comparative Studies of Chlorpromazine and Imipramine 2: Psychological Performance Profiles." The figure itself carries the legend and I do not think a special one is necessary. However, a longer legend might be "Figure 1: Psychological tests in which significant changes occurred with chlorpromazine and imipramine when compared to placebo group."

The group of electroencephalographers who are interested in meeting in Birmingham in 1964 have circulated some letters and we should have some specific suggestions for the program committee by this summer. Many thanks.

Sincerely yours,

MISSOURI INSTITUTE OF PSYCHIATRY

Max Fink, M. D.
