Siva Sankar, Ph.D.  
Queens Children's Hospital  
74003 Commonwealth Boulevard  
Bellerose, New York 11426

Dear Dr. Sankar:

I regret the delay in answering your letter of August 20, but it was sent to my former University and I only received it yesterday.

I thank you for the invitation to contribute to the volume on "Psychopharmacology in Childhood". I regret, however, that I have little original data that I would consider for submission in such a volume. However, my former associate, Jovan Simeon, of the Missouri Institute of Psychiatry, has had extensive experience in this field. I would suggest that you write to him should you wish another participant in your volume.

My best regards.

Sincerely yours,

Max Fink, M. D.  
Professor of Psychiatry
