

September 21, 1964

Paul Hoch, M.D.
Commissioner
Department of Mental Hygiene
State of New York
Albany, New York

Dear Paul:

Knowing your interest and since I have referred to some of your early studies, I am taking the liberty of sending you this copy of a report on the effect of Chlorpromazine-Procyclidine in the treatment of depressive disorders, which has been accepted for publication by Psychopharmacologia. I am also taking the liberty of enclosing a copy of the presentation that I made at C.I.N.P., as this may be of some interest to some of your investigators.

My best regards,

Sincerely yours,

Max Fink, M.D.
Director
