Dr. M. H. Aprison  
Department of Psychiatry  
Indiana University Medical Center  
1100 W. Michigan St.  
Indianapolis, Indiana

Dear Dr. Aprison:

It was a pleasure discussing our interest in anticholinergic drugs during our visit in Mexico City. I should like very much to develop a program in biochemistry of the changes induced by ECT. I am taking the liberty of enclosing some reprints of our work.

I should be grateful for the names and the addresses of the workers in Washington that you cited in our discussions. Thank you for your interest.

My best wishes for the New Year.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
