Dr. Myron Sandifer
Director of Research
State Hospital
Raleigh, North Carolina

Dear Myron:

I found your presentation on Wednesday of considerable interest, and would appreciate a preprint of your report, when such is available. Also, at the last meeting of the Clinical Committee you made some reference to your classification studies, and I would be interested in any other reports which you have relating to this problem.

My best regards.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
