Dear Doctor Taylor,

When I received your request for a copy of the Proceedings of the ECT Conference, I knew that it was not available. Indeed, the documents have recently been sent to the publisher and the volume "Psychobiology of Convulsive Therapy", edited by myself, Kety, and McGaugh, and Williams, will be published by V. H. Winston and Sons of Washington, D.C. about November, 1973. No other proceedings are available at the present time until that volume is published.

Should you wish to obtain a different overview of the ECT process, I suggest you look at the special issue of Seminars in Psychiatry which I edited, volume 4, number 1, February, 1972.

Thank you for your interest.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
