340 Kingsland
Nutley, New Jersey 07110

Dear Mr. Billig:

Thank you very much for your willingness to support our study program. As I had mentioned to you in my office, we have been using Librium for the past four months in the psychopharmacology study program in the Mental Health Clinic as a standard in the treatment of anxiety. We would be grateful to receive 5,000 capsules of Librium, 25 mg each.

We have been treating cases of anxiety in the clinic and have used Librium as one of the standard medications. I believe that this is the best way to train our resident physicians in the proper treatment of the acute mentally ill.

Thank you very much for your assistance in this program.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
