Dr. Joseph G. Bird
Director of Experimental Medicine
Sterling-Winthrop Research Institute
Rensselaer, New York 12144

Dear Joe,

Thank you very much for the grant-in-aid in support of the open study of cyclazocine as an antidepressant. We are, indeed grateful for your continued support of this study program.

I have just completed an additional report concerning the EEG background for the recommendation of cyclazocine as an antidepressant. This report will be presented at the forthcoming meeting of the ACNP in Puerto Rico. Enclosed is a copy for your information.

It was a great pleasure to have Drs. Rosenberg and Marshall visit with us on Friday. I trust that they will share with you some of our recent experiences with naloxone. Dr. Marshall indicated that he would like to discuss a study of oxypertine, and I look forward to meeting with him next Monday.

Again, our thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
