

73SB-682

June 1st, 1973

Iver F. Small, M.D.,
Secretary, Society of Biological Psychiatry,
Larue D. Carter Memorial Hospital,
1315 W. 10th St.,
Indianapolis, Indiana 46202.

Dear Iver,

I am writing with regard to the innovative addition to the 1973 program booklet of the Society of Biological Psychiatry - that of listing the previous winners of the awards of the Society.

In 1958, I was honored to share the A. E. Bennett award with Lester Havens. The present listing ignores this award. The honor to the Society, as well as to ourselves, in the continued research which we have done is thereby ignored. Indeed, there were earlier recipients who have been as productive as any in the Society.

I am sure the omission is due to a shortage of space - nevertheless, an addendum inserted in this year's programs in Montreal would be comforting; and should the Society decide to list the awardees again, I would hope all would be included.

My best regards, and I look forward to a successful meeting in Montreal.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
