

December 18, 1964

William P. Wilson, M.D.
Professor of Psychiatry
Duke University Medical Center
Durham, North Carolina

Dear Bill:

Thank you very much for the copy of your manuscript concerning your studies with anti-cholinergic hallucinogens. I would be pleased to have you participate in the panel symposium entitled "Anti-cholinergic Hallucinogens" which has been accepted by the Program Committee of the Society of Biological Psychiatry for its 1965 meeting. The other participants in the panel are Drs. Abood, White, Gershon and Itil.

Since the program is in a panel form, I would like to list one member of your quadrumvirate as a participant in the panel. Is it proper to list you, or would you prefer having one of your co-workers?

In the next few weeks, I hope to have more detailed abstracts from the other participants and I will send these to each as I receive them.

My best wishes for the New Year.

Sincerely yours,

Max Fink, M.D.
Director
