Dr. John F. Monroe
Associate Medical Director
The Squibb Institute for Medical Research
New Brunswick, New Jersey 08903

Dear Dr. Monroe:

The shipments of fluphenazine which we received two weeks ago have now been put to considerable use. There are 15 patients receiving this medication, and my nurse reminds me that the present supply will be depleted in three weeks.

Rather than try to arrange shipping at airmail rates, would you kindly send us thirty additional 10cc units of Prolixin Decanate, lot no. At. 1-53/15-S-1.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
