

July 31, 1970

Miss Josephine Beals  
Executive Secretary  
NCPS  
San Francisco

Dear Miss Beals,

Dr. Michael Taylor is one of the best qualified residents to have graduated our training programs. He has a brilliant future ahead of him, if he disregards the frivolous demands of organized medicine and psychiatry.

As a resident, he showed initiative, industry and intelligence above his peers. He is sincere and honest and it was a pleasure to see him assume responsibility for patients and for his research projects. He shared the 1969 research prize of the Society for Biological Psychiatry with a fellow resident.

I am pleased to recommend him to the society.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
