Dr. Necmettin Polvan  
Abdulhak Hamid Cad 76/4  
Serin Apt.  
Taksim, Istanbul  
Turkey

Dear Dr. Polvan:

As Dr. Itil has written, I am planning to visit Istanbul at the end of February. My present plans are to leave Zurich on Swiss Air 326 on Sunday, February 25. The flight is scheduled to arrive in Istanbul at 7:05 pm.

Dr. Itil suggests that I stay at the Divan and I would be grateful if you would call them and make a reservation on my behalf. Failing that, I would trust you to make a reservation at any hotel convenient for you.

As I understand my mission, it is to see the patients with you on high dose fluphenazine; to review the butaperazine project; and to visit your hospital and, if possible, the Bakirköy in order to maintain our relationship with that institution.

On this trip I would like to visit the laboratory of Professor Roubicek in Prague and have scheduled a flight from Istanbul to Prague on February 28.

I look forward to seeing you at the end of the month. My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
