

February 5, 1968

Mr. Henry L. Giordano
Commissioner of Narcotics
Federal Bureau of Narcotics
633 Indiana Avenue, N.W.
Washington, D.C. 20226

Dear Mr. Giordano:

During the past year we have studied the clinical efficacy of naloxone in the treatment of narcotic addiction. The manufacturer, Endo Laboratories, has been unable to supply additional material because of the expenses involved. At their request, we are enclosing a copy of a preliminary report of our experiences. It is my understanding that David L. Klein, Senior Vice President of Endo Laboratories plans to discuss this project with your office.

Your cooperation in making this compound available for further study will be appreciated.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
