Washington University School of Medicine
St. Louis, Missouri 63110

Dear Sam:

I am writing to thank you for your help in the Nominating Committee. I have received a report from Fritz, and I think the suggestions are excellent.

I keep hearing disturbing news from St. Louis. We were visited today by one of the young psychiatrists from Malcolm Bliss, who suggested that some of the same restrictions on research visited on the MIP are apparently being established at Bliss. From this distance of 1100 miles, one would wonder if a concerted effort by WU, MU, and SLU would not be called for, not only to help MIP survive but to provide a dam for the "know-nothing" mentality of middle Missouri.

My thanks for your help,

Sincerely yours,

Max Fink, M.D.
