*Z. letters*

Dr. Z. Bohdanecky  
Department of Pharmacology  
Albert Einstein College of Medicine  
East Chester and Morris Park Avenue  
Bronx, New York 10461

Dear Dr. Bohdanecky:

Thank you very much for your letter of November 20. I did get to New York but stayed there for only a day as I was called back to St. Louis.

My travel schedule is such that I do come to the city rarely often and I would like the opportunity to call you on one of my future trips and perhaps arrange, at that time, to meet with you.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry

Dear Dr. Bohdanecky:

Dr. Vojtechovsky and I have been interested in the problems of anticholinergic drugs for a number of years and this has brought us together. At the recent meetings in Vienna, we discussed the work in the laboratories in Prague. He told me that both you and Dr. Vitek were in the United States and I am writing today to inquire whether it would be possible for us to meet during the first week in December when I will be in New York attending the EEG and ARNMD meetings.

Are you planning to attend either of those sessions? If so, I would like to arrange to meet to discuss our common interests in anticholinergic compounds. I would be pleased if you could join me for lunch on Friday or Saturday, December 3rd or 4th, during the ARNMD meetings.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
