

February 8, 1967

Dr. Shervert H. Frazier
Chairman, Program Committee
P. O. Box 20041
Houston, Texas 77025

Dear Dr. Frazier:

It is with great regret that my associates and I are writing to withdraw our exhibit entitled "Application of Digital Computer Analyses of the EEG to Psychiatry," from the 1967 meeting of the APA. A change in equipment, and its unavailability for programming and debugging at this late date makes a sophisticated and satisfactory demonstration by early May, highly unlikely.

Please accept my apologies for any inconveniences this may have caused the Committee.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
