

February 22, 1971

Dr. William Martin
National Institute of Mental Health
Lexington, Kentucky

Dear Bill,

Art Zaks reported that the data on EN 1639 is as interesting as you hinted last fall. Unfortunately, illness prevented my attending the meeting, and I am writing to ask if you can make a copy of the report available to me.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
