

January 23, 1967

Dr. Warren A. Thompson  
Associate Chairman  
Missouri Institute of Psychiatry  
5400 Arsenal Street  
St. Louis, Missouri 63139

Dear Warren,

I have read your letter of January 17, and that of the Assistant Director of the University of Missouri of January 4. Enclosed is a new set of contracts, which, if they meet with Dr. Ulett's approval, should be turned over to the University.

With regard to malpractice insurance, it has been my understanding and it was the practice of the Institute to provide coverage for each member of the medical staff. Since malpractice coverage bears no relation to income, I fail to understand how the University can ask for additional payment. However, if the Chairman of the Department sees such payment is consistent with our past practice, I will be glad to abide with the University but would request that you discuss this with him before returning the bill to me.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
