

June 29, 1970

TO WHOM IT MAY CONCERN:

Mr. Robert Sharp was employed as a psychiatric assistant in the drug addiction research program of this Department of Psychiatry from October 1967 to April 1970.

During this period he assisted us in interviewing patients with opiate dependence; supervised other assistants; participated in group therapy sessions; and coordinated ward activity programs. In these efforts he was diligent and reliable. He assumed responsibility and carried it out.

He left us for personal reasons, wanting to be with family members in California. I regretted his leaving, indicating that he could have his position back as long as it was unfilled.

I am pleased to recommend him for a similar position.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
