Dear Paddy,

As I discussed with you, we are planning to undertake a comparison of Tofranil as the standard antidepressant with a novel compound, cyclazocine. This study should be double blind and in order to provide us with matched capsules, I am writing to request Geigy Pharmaceuticals to make available to us 600 mg imipramine powder. If this is possible, I would appreciate your shipping this to:

Dr. Joseph G. Bird
Director, Div. of Clinical Research
Sterling-Winthrop Research Institute

The protocol for this study is now being revised and I will send you a copy of the definitive draft as soon as it is completed.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
