A. Grace Pierce, M.D.  
Associate Director of  
Clinical Research  
Ortho Research Foundation  
Raritan, New Jersey 08869

Dear Dr. Pierce:

I look forward to seeing you on Wednesday morning at 11 a.m. I have received the description of ORF 8063 and look forward to discussing this with you.

Much of our work is focused on a description of the EEG changes induced by psychoactive drugs. In anticipation of our discussion, I am sending you two recent summaries of our work.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
