Chevy Chase, Maryland 20015

Dear Dr. Scigliano:

We have completed one study with the marijuana recently supplied us and are planning to undertake two studies during August. In one we will use marijuana left, and the amount left is adequate for our needs.

In a second study we wish to test the marijuana extract distillate. We have on hand the three ampules SSC #61152 rated at 17.1% Δ<sup>9</sup>-THC. To carry out this study we will need an additional three ampules.

Would it be possible to obtain this supplement within the next few weeks?

For your information I am enclosing a summary of our recently completed marijuana experiment as well as a record of our drug use.

Thank you very much for your cooperation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
