Central Islip State Hospital
Central Islip, New York 11722

Dear Sid,

I have read the volume, "Non-Scientific Constraints in Medical Research" with much interest. It is a fine volume, and serves a need which (I will admit) I did not see until you brought it to my attention.

You are also to be congratulated on the rapidity of publication - I have never had a report published so well, so rapidly.

I look forward to the success of the volume.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
