Switzerland

Dear Dr. Schmidlin:

RE: 64/S1/dk

Let me take this opportunity to thank you once again for your kind invitation to participate in the Geigy work shop during the CINP meetings. I found the session very interesting and was particularly pleased to see the progress which has taken place in your programs in Europe.

As I indicated, we are particularly interested in the development of psychopathological rating scales. I am enclosing a copy of our present rating scale and the list of definitions which we have found helpful. At the present time, we are modifying this scale so that it can be translated by an optical page reader into punched cards without having to go through the tedious step of having these processed by hand.

As I indicated, my associate, Dr. Turan Itil and I are most interested in the further development of your program and wish you the best of luck.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
