

J. Leelan  
1964

December 18, 1964

Mrs. Paul Hoch  
Department of Mental Hygiene  
Albany, New York

Dear Mrs. Hoch:

It was with a great deal of regret that I read of Paul's death. It was only the week earlier that I had the satisfaction of having lunch with him at the Society of Biological Psychiatry, and during that discussion he told me of his many plans for New York State. The combination of his enthusiasm, integrity, vision, and scientific acumen will not be found so readily again in the American scene.

He was a fine teacher, and a great leader. I am proud to have known him, and to have worked with him.

Sincerely yours,

Max Fink, M.D.  
Research Professor of Psychiatry  
Washington University
