

July 13, 1976

Julien Mendlewicz, M.D.  
B-1020 Brussels, Belgium

Dear Julien,

It was nice meeting you in Quebec. I hope you enjoyed the meetings as much as I did.

On my return, I found the letter of acceptance of the Rapaport paper. I called her, and she has agreed to send you a shorter title and a corrected, clear version of the tables.

Dr. Dornbush has agreed to send you a draft of her report of the effects of ACTH<sub>4010</sub> in elderly subjects.

I have reviewed the manuscript and made a few corrections which I believe improve the draft. Please substitute this draft for the one in your hands. This one is marked (VI:7-8-76).

The shorter title of "ACTH<sub>4-10</sub>, Quantitative EEG and Memory" is acceptable; as is the list of ~~key~~ words.

Thank you for your consideration.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
