

November 12, 1964

Mr. Louis Ziskind
Executive Director
Gateways Hospital
Los Angeles, 26, California

Dear Mr. Ziskind:

Thank you very much for your letter of November 9th and your notes of our conference. While I would not have selected the choice of words in many of the paragraphs, I believe you captured the sense of my recommendations very well.

In the event that these notes may be available to others at your hospital, I am embarrassed that some of the language is stronger than I believe was intended. I am taking the liberty, therefore, of editing these notes and am returning them to you with the request that other copies in your hands may be discarded and these used as replacement.

Insofar as you are planning to write to the people at Hillside Hospital, I am taking the liberty of writing a letter to Dr. Lewis Robbins and am enclosing a copy for you.

Sincerely yours,

Max Fink, M.D.
Director
