

January 29, 1968

Dr. Alain Sanseigne
Squibb International
460 Park Avenue
New York, New York

Dear Alain,

Enclosed is a copy of the staff announcements for this Friday's presentation, and a copy of Luigi's notes. Dr. Simeon will report on the data from Missouri, and a copy of that report is enclosed.

As I mentioned, I would be grateful if you would join me about quarter of eleven, 15th floor, Metropolitan Hospital in the Mental Health Clinic (inquire at the psychiatric office).

At 11 o'clock I would like you to join me in talking to the resident physicians about the methods and problems in new drug evaluation. They have had two lectures already, one on the history of psychopharmacology and one on models and classifications of drugs.

Turan is planning to join the noon lecture and perhaps we can have lunch afterwards.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
