Dr. J. W. Affleck  
Royal Edinburgh Hospital  
Morningside Place  
Edinburgh, Scotland

Dear Dr. Affleck:

Dr. Jovan Simeon has applied for a position in the clinical research programs at this research and training center, and has suggested that we may write to you for a recommendation.

The programs at this institute are devoted to clinical psychiatric research, primarily of a neuropharmacological and neurophysiological variety. The programs are designed also as the basis for the training of residents in psychiatry.

We would be grateful for any information you can give us regarding the ability of Dr. Simeon to participate in clinical psychiatric research programs; his ability to communicate with psychiatric patients and especially his facility with the English language. I would be most grateful for your comments regarding his tact and abilities in the supervision of resident physicians.

Thank you very much for your cooperation.

Sincerely yours,

Max Fink, M.D.  
Director
