Princeton, N.J.

Dear Leo,

I have written to the secretary of the EEG Society regarding your membership and have not yet received an answer. As soon as I do, I will call you.

Thank you for your kind invitation. My plans are very complex now, as I have just bought a home in St. Louis and must move my family before September. I do plan to be in New York some of the time in October-November, and shall try to arrange a visit early in that period. May I call you after the CINP and arrange it more definitely?

Thank you.

Sincerely yours,

MF:dts
