Dr. Zdenek Votava
Professor of Pharmacology
Medical Research Associate IV
Galesburg State Research Hospital
Galesburg, Illinois 61401

Dear Dr. Votava:

It would be a pleasure to have you visit our Department on Wednesday, May 31. The psychopharmacology group here is still small, and so I do not know if it would be particularly advantageous to arrange a formal presentation, but I am sure that an informal discussion would be most helpful to me and my associates. Surely, the problem of EEG and cholinergic and anticholinergic drugs would be of principal interest.

Probably, the best time to visit would be in the early afternoon, but I should like to know more of your trip and perhaps we can make arrangements for lunch at the College.

I hope that your studies have gone well and I look forward to hearing about what you have done in Illinois.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
