Gentlemen:

I would like to apply on behalf of Mr. Heywood Zeidman for a stipend awarded by the PMA in the program of medical student traineeships in clinical pharmacology.

Mr. Zeidman, a freshman medical student enrolled at New York Medical College, has become interested in a research project involving narcotic antagonists. He will attempt to develop a method of administration for naloxone and/or cyclazocine to be released at a steady rate to provide extended antagonism to heroin use.

This project will involve both laboratory and clinical research with heroin dependent patients. He will participate in studies of antagonist administration, heroin challenges, etc. which are part of the treatment of heroin dependence.

He possesses a Master of Science degree in pharmacology and has completed many required medical school courses. He is working with us virtually full time beginning immediately and ending in September 1969.

Thank you for your cooperation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
