Dr. Eugene Laska  
Computer Center Research Facility  
Rockland State Hospital  
Orangeburg, New York

Dear Gene,

Many thanks for your kind invitation to participate in the symposium on computer applications at the World Congress. I will work out the details of my summer trips within the next few weeks and will let you know before the end of the month whether I can participate.

For your information, I am enclosing two copies of the write-up of our information retrieval system. This now has more than one thousand citations and while these are focussed on the subjects of EEG, psychopharmacology and certain aspects of perception which interest me, it makes a good demonstration. If one wished, special article acquisition lists could be added for a demonstration purpose.

I will describe the EEG programs and our applications when I visit with you. Assuming other things being uncomplicated, I will plan to visit on Thursday, February 17.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
