Dear Sir:

We have seen an informal notice that NIMH is requesting bids for the study of phase 1 pharmacology trials of novel narcotic antagonists, Notice SS-NDA-73-5.

We would appreciate a copy of this Notice. For some years we have been interested in the clinical pharmacology of narcotic antagonists, and believe that some of the methods we have developed using EEG quantification may be applicable.

Thank you.

Sincerely yours,

Max Fink, M.D.
