

July 28, 1969

Dr. Wilfred Dorfman
Academy of Psychosomatic Medicine
Brooklyn 26, New York

Dear Bill,

While I am not sure that our funds will allow the trip, I would like to plan to participate and suggest the following title for a presentation:

Classification of Psychotropic Drugs By Human EEG
Criteria

This title will permit me to describe our EEG work of many years and the applications which interest me now, such as the identification of new active compounds in phase I trials.

Thank you, again, for the invitation.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
